LIFE FROM DEATH

The EMS Part in Organ Donation

CONTENTS

FEATURES

Nadine B. Sokol

24 Inspiring Confidence In Oxygen Therapy (CEU Article)

BY JUDITH A. RUPLE, RN, MEd, AND PHILIP GERONIMO, RRT
Instituting the necessary precautions in oxygen administration can help EMS providers and patients alike breathe a sigh of relief.

40 Sounds of the Future? Ultrasonography in the Field

BY ROGER W. BOSWELL, MD

Sometimes, it's just as important to rule out a condition as it is to make a diagnosis. One hospital-based air medical program in Alabama is using ultrasonography to assess patients in-flight.

48 Seize the Moment: The EMS Role in Organ Donation

BY DAVID WINMILL, RN, BSN, AND JEFF CLAWSON, MD

Often the first on scene, EMTs and paramedics can play a crucial role in facilitating organ donation. Find out how you can identify potential donors and, ultimately, make transplantation possible.

54 Giving the Gift of Life

BY KEVIN A. MYER, BS, EMT-C

55 Trauma Rounds: The Case of the Traumatically Asphyxiated Patient

BY KEVIN BROWN, MD, EMT-P, WALLACE CARTER JR., MD, GARY E. LOMBARDI, MD, AND WARREN WETZEL, MD

The underlying condition of a crush-injury victim may be more than meets the eye.

60 Easing Intubation with Succinylcholine

BY MICHAEL O. BERVE, EMT-P

A paralytic agent, SUX is moving out of the hospital and into the field, clearing the way for intubation in difficult situations.

66 Calming Patients in Flight

BY TODD J. LEDUC, NREMT-P
