CONTENTS

JULY 1986 VOL. 11 NO. 7

Features

- 32 Special Report: Constructive Antagonism** BY BRUCE GOLDFARB. Professionals involved in all phases of EMS and related activities gathered at the ASTM headquarters in an effort to establish acceptable standards under which personnel can work.
- 40 Insurance Next Year?** BY LOREN MARSHALL. The national storm of liability insurance problems has left EMS battered, but still afloat. The reasons why may help predict insurance availability in the future.
- 65 More Extrication** BY RONALD E. MOORE. The challenge of new technology in the automobile extrication field is upon EMS today. Understanding it and skill development will be crucial to rescuer survival.
- 66 Third Trimester Bleeding** BY DENNIS A. DOLGAN, MD AND WILLIAM R. ROUSH, MD. The causes of third trimester bleeding are diverse, but because of the potential of lethal complications for the mother or unborn child, all bleeding must be tended to due to more serious causes discussed here.
- 68 Cardiology Practicum** BY MIKE TAIGMAN AND SYD CANAN. Actual case histories are displayed to provide a new spectrum of clinical opportunities that develop an understanding of a sophisticated approach to EKG interpretation.
- 70 National EMT-D Study** BY MARY NEWMAN. Due to high levels of interest in EMT-D, *jems* conducted a national study to determine general awareness of EMT-D as well as the general status of EMT-D development across the country.
- 74 Ambulance Manufacturers' Survey** STAFF REPORT. This survey offers a listing of companies involved in the manufacturing of ambulances with information about their specialty vehicles.

Columns
