CONTENTS

MARCH 1984 Vol. 9 No. 3

FEATURES

The Unruly Patient 27
Unruly patients present legal risks if rescuers decide not to treat such patients. They also present a potential for physical harm to EMTs and paramedics. Approaches to disturbed and unruly patients are explored — *by Sandra Parlin*

CPR Goes to Work 29
CPR in the corporate setting has been shown to save lives as well as to save companies money. Results of a year-long research project on the involvement of corporations in CPR training are presented — *by Mary J. Newman*

PC Emergency 36
A sleepy little town in Ohio adheres to national standards and stays in the mainstream of EMS through the use of microcomputers. The practical applications of micros are explored through a detailed examination of how this town puts them to use — *by Michael Frank, MD*

Index to Articles Appearing in Jems 42
A listing by department to complete the listing started in the 1984 Almanac (January).
